

High School Science

Transition into Common Core State Standards

- For the 2012-2013 school year, Grades 9 - 12 were required to fully integrate and implement the Language Arts and Mathematics CCSS into the 9 - 12 Science courses.

2012-2013 District Science Pacing Guides

- Courses for Grades 9 - 12 have replaced the Language Arts and Mathematics NGSSS for the CCSS (includes Physical Science, Biology, Chemistry, and Physics pacing guides).
- CCSS are aligned to the skills necessary for in-depth content understanding in Science.

Resources

- High School Science Resources are currently aligned to the NGSSS Standards and updated FLDOE course descriptions integrating the Language Arts and Mathematics CCSS.

District Science Assessments for High School

- 2012-2013 courses for Physical Science and Chemistry Quarterly Science Benchmark Assessments (QSBA) are aligned to the pacing guides. Items assess at the rigor required by Science course descriptions.
- 2012-2013 Biology Interim Assessment (IA) aligned to the pacing guides and focuses on the Biology End of Course exam. Items assess at the rigor required by Science course descriptions.
